FRONT-END DEVELOPER

Summary

I am equipped with a diverse skill set that includes HTML5, CSS3, Bootstrap5, JavaScript, React, Redux, Firebase, and Git. With hands-on experience in creating more than Five real-world projects using React, I have gained practical knowledge in front-end development. I am now seeking a role where I can contribute my skills and passion for creating engaging user experiences.

Education

Shaheed Zulfikar Ali Bhutto Institute of Science and Technology - Islamabad   **October 2020 – July 2024**
BS - Software Engineering
Coursework: Object Oriented Programming, Data Structures

Abbottabad Public School and College - Abbottabad   **July - 2017 – July - 2019**
HSSC - Pre-Engineering
Coursework: Mathematics

Technical Skills

Languages/Technologies: HTML5, CSS3, Bootstrap5, Tailwind-CSS, JavaScript-ES6, React.js, Redux, Firebase
Software & Tools: Visual Studio Code, Git, GitHub, Figma, React-dev Tools

Experience

SYNC INTERN'S   **March 2023 – May 2023**
React Intern
- I worked on four different projects that gave me exposure to various frameworks and programming languages including JavaScript, React.js, Firebase, APIs, and OpenAI. As a part of my internship, I worked on building dynamic user interfaces using React.js, integrating APIs and Firebase for data management, and implementing AI-powered features using OpenAI. Through these projects, I gained hands-on experience in developing web applications using modern technologies and tools.
- **Skills:** HTML5, CSS3, Tailwind CSS, Bootstrap5, JavaScript, React.js, React-redux, Firebase, Web Services API, Git Open-Ai

Fiverr Freelance   **March 2020 – December 2022**
Front-end Developer
- My Fiverr journey has allowed me to collaborate with diverse clients, providing solutions tailored to their specific needs. The projects I have completed reflect my dedication to producing high-quality work that aligns with the latest industry standards. With a passion for problem-solving and an eye for precision, I ensure that every project I undertake is executed with pixel-perfect precision. My commitment to excellence has garnered positive reviews and satisfied clients on the platform. I believe in fostering effective communication with clients, understanding their needs, and delivering solutions that exceed expectations.
- **Skills:** HTML5, CSS3, Bootstrap5, Tailwind CSS, JavaScript, React.js

Projects

News Website | *HTML5 , CSS3, Bootstrap5, JavaScript, React.js*   **April – May 2023**
- The homepage displays a list of the latest news articles from all categories.
- Each article in the list has a title, a short summary, and a thumbnail image.
- Clicking on an article opens a new page with the full article text.
- The project uses Bootstrap 5 to provide a consistent and responsive design.
- The project uses React.js to create a dynamic and interactive user interface.

React Weather App | *HTML5 , CSS3, JavaScript, React.js, OpenWeatherMap-API*   **March – April 2023**
- The weather app project is a dynamic and user-friendly web application built using React.js.
- It utilizes OpenWeatherMap API to retrieve current and 5-day weather forecasts for various cities around the world.
- The app allows users to search for a city by name and view its weather conditions, including temperature, humidity, wind speed, and description of the current weather.
- Additionally, the app displays an appropriate background image based on the weather conditions in the selected city.

Chat App | *HTML5 , CSS3, JavaScript, React.js, Firebase, User-authentication*   **March – April 2023**

- The application allows multiple users to chat with each other in real-time and store chat data in Firebase.
- The application is built with Firebase, a back-end-as-a-service platform that provides real-time data storage, authentication, and hosting.
- Each user registers with a unique ID and then login to the app to communicate

React Word Counter | *HTML5 , CSS3, Bootstrap5, JavaScript, React.js*   **August – September 2022**

- The project is a Word Counter application made in React.js that allows the user to count the number of words in a given sentence.
- The app also provides a dark mode option for users who prefer a darker interface.
- The app has a preview section that displays the typed words in real time and provides features such as converting the text to uppercase or lowercase, clearing the text, and copying the text.
- Additionally, the app has a feature that displays the time frame for reading the entire sentence.

Certifications

Intro to Front-end Development - **Meta**

React.js skillset Certificate - **HackerRank**

Javascript React Bootcamp by ShapeAI - **GDSC**

Javascript React Bootcamp - **ASC MLSA**

Decentralization and World Career Event Certificate - **MLSA**

Virtual Solution Architect Experience Certificate - **AWS**
